I am deeply concerned about the proposed changes to State Plan data reporting. While it should be no secret that I have not been a fan of the Bureau for the 17 years I have worked with them, off and on, I look forward to revisiting that issue at this meeting in a positive way, as well as the discussion surrounding the State Plan objectives and strategies as a whole.

Unfortunately, this will be my last meeting for some time, due to a new job at the IRS that I will be starting either later this month or mid-next. While this has caused me to place my application on hold, as to the disability community, it is not goodbye, but see you later. I will remain available to any Board/Commission/Council, or individual persons, for consultations most evenings and weekends.
