VIA HAND DELIVERY

Nevada Dept. of Employment, Training, and Rehabilitation
Attn: Rapid Response
500 E. Third Street
Carson City, NV 89713
rapidresponse@detr.nv.gov

Dear Rapid Response Team:

This letter constitutes your notice under the Worker Adjustment and Retraining Notification Act (WARN).

Amentum has learned that it has not been awarded the new contract supporting aircraft maintenance support services on the F-5 Naval Tactical Air Warfare Adversary Aircraft Maintenance Contract. As a result, Amentum's operations at Fallon, NV and all other locations will close, and the employment with Amentum of all Amentum employees performing on the F-5 Contract is expected to end on September 2, 2024.

This is not a temporary layoff. Bumping rights do not exist for any employee. Please note, however, that the work currently performed by Amentum on the F-5 Contract will continue to be performed by a successor contractor, V2X. We anticipate that V2X will be communicating with the Amentum F-5 contract workforce about employment opportunities in the near future.

All affected employees have been notified. A list of the job titles of the positions affected and the number of affected employees in each classification appears below.

Amentum is a party to a CBA with the International Union of Electronic, Electrical, Salaried, Machine and Furniture Workers CWA, AFL-CIO, and its Local 83224. [REDACTED]

[REDACTED]

Amentum has only recently been notified of these actions and is therefore providing this information as soon as practicable. [REDACTED]

Sincerely,

[REDACTED]
F-5 Program Director
Encl.
