Feedback on SSA's CME program and courses:

*"We are so lucky to be piloting this program. We just recently had a CE provider complete all 25 of the CMEs. The CMEs were easily accessible for the provider, and the business process for my PROs to get the certificate of completion was easy."*

*"I appreciate the quality CME offerings and am glad we have them available."*

*"I do think the SSA's CMEs are very good and helpful. I need to do many hours by June 30th and will continue to enjoy the CME courses."*

*"I just reviewed the VOD on HIV (excellent btw)."*

*"I just watched the Intellectual Disability video and found it to be quite informative. I am recommending that all of our psychological consultants and adjudicators view it...."*
